

INSTRUCTIONS

for keybinding icon sticker

1. Preparation: Make sure the surface is clean and dry.
2. Select sticker: Use the white sticker sheet for light surfaces and the black one for dark surfaces.
3. Apply stickers: Release the stickers with a flathead screwdriver and press them firmly into the desired position.
4. Additional functions: Some functions require mods (scripts) like GPS, wipers, VCA.
5. Show us your design: post a picture on Instagram and tag us: @ls_seitenkonsolen

1 Engine on/off	22 Low beam	43 GPS menu	64 Extend front loader	85 Hydraulics extend	106 Group up
2 Engine preheat	23 High beam	44 GPS on/off	65 Retract front loader	86 Hydraulics retract	107 Group down
